What attendees are saying:

"Kato has done an amazing job with this course. All presenters were very knowledgeable and very willing to help. I have been to many training courses with many different companies and I can honestly say that this was the greatest experience I have had...."

"This was a great informational class to me as an end user to help understand generator theory and arrangement."

"Very worthwhile course. Plant tour appreciated. All engineers very friendly, knowledgeable and helpful."

"GenSchool was an excellent experience. All presenters were very good and knowledgeable."

"This learning experience was excellent. I have attended MANY schools over the years, and this was one of the best; very well planned and executed."
