

Nidec

Drives

Right first time

On time, every time

Nidec Drives are drives specialists, who are committed to delivering “Total Customer Success” through a culture of 3Q6S, driving continuous improvement for highest quality products and solutions, which exceed customer expectations.

To reach these targets, Nidec Drives has the following quality objectives:

1. Promote a focused business culture.
2. Top Management incorporate quality values in all business decisions, with a clear vision.
3. Respect people at all levels of the business, maximising team performance.
4. Effectively manage and measure performance.
5. Continually improve by looking for breakthrough opportunities.
6. Make informed decisions based on reliable and factual data.
7. Promote collaboration to achieve “One Nidec Team”.

At Nidec Drives we actively encourage employee participation in all our programs. All quality concerns should be raised directly with the local site management or quality representative.

It is our intent to have an open and respectful culture promoting quality best practices.
