

# Unidrive M101

## Simplicity in control

**Value, quality and performance for open-loop applications**

0.25 kW - 7.5 kW (0.33 hp - 10 hp)  
100 V | 200 V | 400 V

Even though it runs on the same technology as our more complex drives, the M101 is ideal for basic motor control. We've stripped out all the extra features, giving you the foundation of what makes the Unidrive M great.

**CONTROL TECHNIQUES™**

**Nidec**  
All for dreams

# Unidrive M101

## In just a few settings, your drive is ready to go

Introducing our most user-friendly drive yet. We designed it to make installation simple and quick. All the parameters you need to get started are on the front of the drive. For everything else, there's the step by step guide that comes in the box.

If you prefer, you'll find online support at our companion site:  
[www.drive-setup.com](http://www.drive-setup.com)

## Even faster setup

Save even more time by transferring settings before you install the drive. All you need is our AI-Backup module or AI-Smart Adaptor, and a 24V power supply.

### Simple to use

Running in

**4 steps**

### Saves energy

**98%**

efficient

### Robust

**150% (60s)**

overload

### Made to last

**up to 5 years  
extended warranty**

### Customer focused

**40 years'**

experience

### Online support

**1-Click**

## A reliable workhorse

Our drives keep your machines running, even in the toughest environments. That means working to international standards IEC60068-2-60 to levels defined by IEC721-3-3 2C3.

## Technology you can trust

By the time they're shipped, we'll have tested our drives up to forty times. Giving you the confidence to fit our drives without the worry of premature failure.

## Drive specifications

Onboard Potentiometer	✓
Open loop vector or V/Hz	✓
Analogue Inputs / Outputs	1/0
Digital Inputs / Outputs / Bidirectional I/O	3/0/1
Relay Output	1
Cloning via SD card <sup>1</sup>	✓

<sup>1</sup>. Configurable
