CURRENT LIFECYCLE STATUS

The current status of the ES2300RG DC drives is "Obsolete". Control Techniques no longer provides repair services or replacement part support. Production capability of ES2300RG drives no longer exist. Upgrade assistance to current product is available.

PENDING LIFECYCLE STATUS CHANGES

None.

REPLACEMENT PRODUCT

The **Quantum MP** regenerative drive replaces the ES2300RG quite easily for almost all applications up to 400 HP. For larger HP ratings the replacement is a packaged **Mentor MP** drive. The Quantum MP offers much more application flexibility and fieldbus interconnectivity. Drive software tools are complimentary and are available on our website for download.

For full details of the Quantum MP and Mentor MP product range or if you need assistance with product selection and conversion please visit the DC Drives page on the Control Techniques website.

Please visit our Upgrade Assistance page for product upgrade assistance and contact information.
