California Proposition 65 Compliance Statement

Consistent with our principal values, KB Electronics strives to provide high quality, safe products for our customers. We are dedicated to working with material and component suppliers to meet consumer product safety requirements applicable to our products, including California Proposition 65 also known as the Safe Drinking Water and Toxic Enforcement Act of 1986. Referring to the California legislation that was intended to inform citizens about exposures to harmful chemicals and prevent chemicals known to cause cancer, birth defects or reproductive harm from entering the State's drinking water sources.

Based upon KB Electronics' knowledge of our business operations and materials used, none of the chemicals listed by the California Environmental Protection Agency are used in our products in a form regulated under California Proposition 65, unless otherwise stated on the following page(s).

The above declaration is founded on information provided by suppliers. Some products are proprietary and manufacturers may not reveal all ingredients. KB Electronics makes no warranties, expressed or implied, and assumes no liability regarding this information.

Whereas KB Electronics produces motor controls for a variety of applications and OEM companies, the above statements apply only to products as supplied by KB Electronics and may not apply to products containing other components or additional treatments supplementary to sale by KB Electronics.

A handwritten signature in black ink that reads "Wesley Bernstein". The signature is written in a cursive style and is positioned above a horizontal line.

Wesley Bernstein | Quality Control Manager
