Drive sheave rope pitch is 0.827".
Machines requiring less ropes than maximum number of grooves will use the grooves closer to gearbox.
1.) Drive sheave rope pitch is 0.827"
2.) Machines requiring less ropes than maximum number of grooves will use the grooves closer to gearbox.
3.) Gearbox Weight : 1250 Lbs, Subbase Weight : 350 Lbs

BRAKE DATA
Pick and Hold Voltage: 200 VDC
Coil Resistance: 455 Ohms/Coil
Coil Connection: 2 Coils in parallel
