

EASYREG SOFTWARE

TECHNICAL NOTE #6

Database update for Easyreg 2.50

Date: 11/07/2016
Software: Easyreg
Version: 2.50
Hardware: D510C
Firmware: all releases

An update of the Easyreg database is available. It intends to:

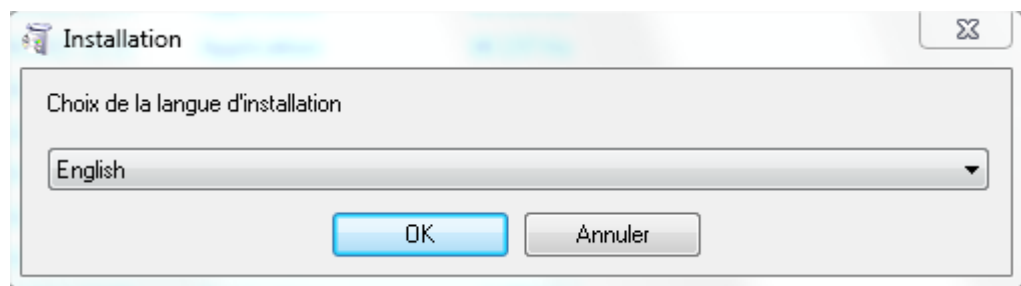

- Include the new LSA 46.3 frame on Easyreg 2.50
- Correct a minor database bug observed on configuration file when PMG excitation is selected on the new alternators frames.

Please follow the procedure below to upgrade your Easyreg 2.50 database

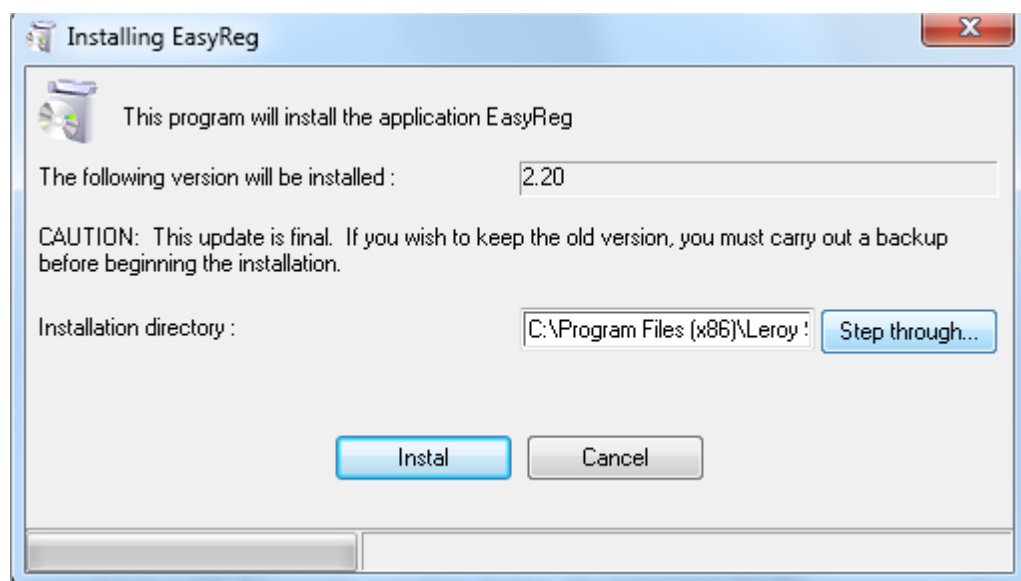

- 1) Download the software application entitled (MAJ_BDD_EasyReg250_04072016.EXE) using the link below

http://www.leroy-somer.com/downloads/MAJ_BDD_EasyReg250_04072016.EXE

- 2) Launch the software and select your language

- 3) On the window, select the installation folder of Easyreg and click on Install

You will then receive a popup message informing you that the database is updated.
