

AGRICULTURE INDUSTRY

Nidec manufactures reliable, energy-efficient replacement motors for the Agriculture Industry.

Electric motor reliability is key to smooth-running operations on any farm. Farm duty motors are designed for applications requiring high starting torque and moderate starting current.

Nidec Motor Corporation offers U.S. MOTORS® brand Farm Duty motors to handle the special heavy duty applications of the agricultural market such as crop dryers, exhaust fans, poultry and livestock auger drive systems, barn cleaners, manure pumps, silo unloaders and more.

Looking for direct replacement motors? Look no further. The U.S. MOTORS line offers an extensive portfolio of replacements and we have the tools—both eBusiness, and motor specifications and technical data—to connect you with the right motor quickly at ecatalog.motorboss.com:

- Competitive cross reference tools
 - More than 50,000 cross references by competitor or OEM catalog and model numbers.
- eCatalog search tool (search by ID, features or applications)
